# Rapid communication of research in medicinal chemistry

free online access available

## MedChemComm

Official journal of:

A peer-reviewed journal publishing medicinal chemistry research, including new studies related to biologically-active chemical or biochemical entities that can act as pharmacological agents with therapeutic potential or relevance.

*MedChemComm* is a monthly journal containing a mix of vibrant and concise research and review articles. It complements the existing RSC Publishing portfolio of bioscience journals, providing authors in the field with a dedicated subject-specific publication.

For free online access to *MedChemComm* during 2011 sign up for a personal account at [www.rsc.org/personalregistration](http://www.rsc.org/personalregistration)

Co-Editor-in-Chief: Dr Anthony Wood, Pfizer, UK

Co-Editor-in-Chief: Professor Greg Verdine, Harvard University, USA
