# The RSC Drug Discovery Series

## Biomarkers for Traumatic Brain Injury

Edited by Svetlana Dambinova, Kennesaw State University, USA | Ronald L. Hayes, Kevin K. W. Wang, Banyan Biomarkers, Inc, USA

Examines current and prospective biomarkers for assessment of TBI using a multidisciplinary approach involving biochemistry, molecular biology and clinical chemistry.

ISBN: 9781849733892 Price: £109.99

## Physico-Chemical and Computational Approaches to Drug Discovery

Edited by F. Javier Luque and Xavier Barril, University of Barcelona, Spain

Provides an updated review of the methodological basis of tools used to decipher ligand-receptor interaction and modelling of biomolecular systems and drug discovery.

ISBN: 9781849733533 Price: £153.99

## Drug Design Strategies: Computational Techniques and Applications

Edited by Timothy Clark and Lee Banting, University of Portsmouth, UK

This comprehensive book shows how different parts of the drug discovery and design process have developed with a particular emphasis on computer-aided drug design.

ISBN: 9781849731676 Price: £139.99

## Kinase Drug Discovery

Edited by Richard A Ward and Frederick W Goldberg, AstraZeneca, UK

This is the first book to examine the future opportunities and challenges in the development of drugs which target kinases.

ISBN: 9781849731744 Price: £132.99

The RSC Drug Discovery Series is a suite of professional reference books that will encourage learning on a range of different topics and provide understanding to scientists working outside of their own areas of expertise. The competitive advantage of the series is that it will follow an idea through to totality with an emphasis on learning and critical evaluation.

**Editor-in-Chief:**  
Professor David Thurston  
London School of Pharmacy, UK

**Series Editors:**  
Dr David Fox  
Pfizer Global R & D, UK

Professor Salvatore Guccione  
University of Catania, Italy

Professor Ana Martinez  
Medicinal Chemistry  
Institute-CSIC, Spain

Professor David Rotella  
Montclair State University, USA

**Advisor to the Board:**  
Professor Robin Ganellin  
University College London, UK

## Forthcoming

### Nanostructured Biomaterials for Overcoming Biological Barriers

ISBN: 9781849733632 | Price: £144.99

This book provides a critical overview of the advances being made towards overcoming biological barriers through the contribution of nanosciences and nanotechnologies.

### Drug Discovery from Natural Products

ISBN: 9781849733618 | Price: £159.49

An integrated review of the most recent trends in natural products drug discovery and key lead candidates that are outstanding for their chemistry and biology in novel drug development.

### Computational Approaches to Nuclear Receptors

ISBN: 9781849733649 | Price: £134.99

The aim of this book is to provide a state-of-the-art review on investigations into modeling nuclear receptors, looking at strengths, weaknesses and the limitations of the approaches.

Whilst every effort was made to ensure these prices were correct at the time of going to press, all information is subject to change without notice.
