# RSC Advances

An international journal to further the chemical sciences

RSC Advances is a new peer-reviewed journal covering all the chemical sciences, including interdisciplinary fields. Published articles report high quality, well-conducted research that adds to the development of the field.

- An expert editorial team led by Professor Mike Ward, University of Sheffield, UK
- Free access to all content throughout 2011 and 2012
- Free colour, no page charges
- Published online only

Sophisticated behind-the-scenes topic modelling classifies content into one or more of twelve subject categories in the chemical sciences: analytical; biological; catalysis; chemical biology and medicinal; energy; environmental; food; inorganic; materials; nanoscience; organic; and physical.
