Catalytic Asymmetric Synthesis of Diarylacetates and 4,4-Diarylbutanoates. A Formal Asymmetric Synthesis of (+)-Sertraline.

Page 233. The $\text{Rh}_2(\text{S-DOSP})_4$ -catalyzed C-H insertions of aryldiazoacetates **6** and **11** with 1,4-cyclohexadiene (Schemes 1 and 2) were carried out at $-50\text{ }^\circ\text{C}$ not at $23\text{ }^\circ\text{C}$ as indicated in the paper. Detailed experimental data are available in the Supporting Information.
