

Additions and Corrections

Vol. 3, 2001

Kirsteen H. Gordon and Shankar Balasubramanian*

Exploring a Benzyloxyaniline Linker Utilizing Ceric Ammonium Nitrate (CAN) as a Cleavage Reagent: Solid-Phase Synthesis of N-Unsubstituted β -Lactams and Secondary Amides.

Page 56, concluding paragraph. We would like to add a reference citing the published work of Annunziata et al. (Annunziata, S.; Benaglia, M.; Cinquini, M.; Cossi, F. *Chem.—Eur. J.* **2000**, *1*, 133–138), which describes similar chemistry carried out on a soluble polymer support. This citation was inadvertently overlooked in our survey of the literature.

Volume 3, 2001

James W. Madine, Xiang Wang, and Ross A. Widenhoefer*

Cyclization/Hydrosilylation of Functionalized Dienes Catalyzed by a Cationic Platinum Phenanthroline Complex.

Page 386, Scheme 2. The relative stereochemistry of the Diels–Alder adduct **3** was depicted incorrectly. The relative stereochemistry of **3**, confirmed by combined COSY and NOESY analysis after publication, is shown below.

Page 387, Table 2. The final heading should be *Z/E*, not *E/Z*. This error was repeated in footnotes b and d.
