Volume 11, 2009

Jan Pschierer and Herbert Plenio*

Suzuki–Miyaura and Sonogashira Coupling of 6-Chloro-
purines and -Nucleosides in Water.

Manuscript ol9007475 is being withdrawn by the authors because there is confirmed evidence that several ^1H and ^{13}C NMR spectra have been manipulated. Therefore, there is no assurance that all of the reactions described are reproducible.
