Concise Synthesis of α -Trisubstituted Amines from
Ketones using *N*-Methoxyamines

Page 2098. Very recently, Ghorai reported Re_2O_7 -catalyzed three-component allylation from ketones: Pramanik, S.; Ghorai, P. *Chem. Commun.* **2012**, 48, 1820–1822. This work is highly relevant to our research and should have been cited in our paper.
