

# Correction to Highly Enantioselective Organocatalytic Oxidative Kinetic Resolution of Secondary Alcohols Using Chirally Modified AZADOs

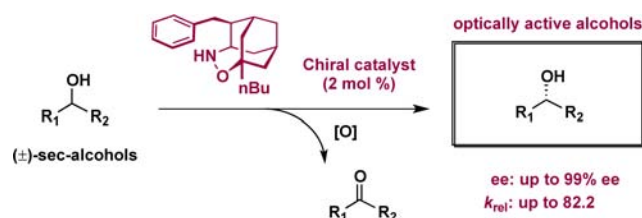

Masaki Tomizawa, Masatoshi Shibuya, and Yoshiharu Iwabuchi\*

*Org. Lett.* 2009, 11(8), 1829–1831. DOI:10.1021/ol900441f

## S Supporting Information

After re-examination of the NMR data, we concluded that compounds 1–7 reported in the original manuscript are 4-oxa-5-azahomoadamantanes, not 2-azaadamantane-2-ols. See below for a full list of corrections and the revised Supporting Information.

1. The Table of Contents and Abstract graphics are corrected as follows:

2. The structures in Figure 2 are corrected as follows:

3. The name of compound 3 in Table 2 and Scheme 1 should be 7-Bn-3-Bu-4-oxa-5-azahomoadamantane.

4. The revised Supporting Information includes corrected synthetic schemes for compounds.

Further investigations including reaction mechanism will be reported in due course.
