

Additions and Corrections

Jana L. Maxwell, Sean O'Malley, Kathlynn C. Brown, and Thomas Kodadek*: Shape-Selective and Asymmetric Cyclopropanation of Alkenes Catalyzed by Rhodium Porphyrins. **1992**, *11*, 645.

The entry in Table I for the syn/anti ratio of the cyclopropyl esters derived from the RhTBNPI-catalyzed cyclopropanation of allylbenzene at 22 °C is incorrect. The ratio is 1.0, not 4.0 as reported.
