

# Additions and Corrections

1994, Volume 13

**Yinong Ma and Robert G. Bergman\***: Synthesis and Reactions of Enantiopure (Neomenthylcyclopentadienyl)iridium(III) Halides with Silver Salts. A Dramatic Steric Effect on the Competition between Inter- and Intramolecular C–H Activation.

Page 2549. The regio- and stereochemistry of the complexes illustrated in Schemes 1 and 2 was incorrectly drawn. Corrected copies of the two illustrations are shown below. The regio- and stereochemistry in the ORTEP diagram (Figure 1) is correct, and the conclusions in the paper are unchanged. We are grateful to Dr. Andreas Heumann, Université d'Aix Marseille, for calling our attention to this error.
