ISBOMC'02 First International Symposium on Bioorganometallic Chemistry

Structure, Reactivity, Biological Applications and Future Perspectives

18 - 20 July, 2002
Paris • France

Scientific Programme

The First International Symposium on Bioorganometallic Chemistry will take place at the "Ecole Nationale Supérieure de Chimie de Paris" located in the lively Latin Quarter. It will comprise keynote lectures, invited lectures, as well as oral and poster contributions, dealing broadly with :

- Synthesis, structure and reactivity of transition and main group bioorganometallic complexes
- Biological applications of organometallic complexes
- Future perspectives

Calendar

The first circular including a pre-registration form was sent in October 2001 and the second circular including a call for abstracts was launched in November 2001.
