Atsushi Ohtaka, Naohiro Kato, and Hideo Kurosawa: Reversible Cleavage of the C–H Bond of Aldimine with Platinum Complexes

Pages 5464–5466. Throughout the paper two systems of units were employed for the values of ΔH° and ΔS° . The value of $\Delta H^\circ = 38.0(8)$ kJ/mol, shown in the table of contents, the summary, and the main text, should be replaced by $\Delta H^\circ = 9.17(9)$ kcal/mol.
