

Reviewers for *Pharmaceutical Research* for the Period November 1, 2003, to December 31, 2004

The editorial team of *Pharmaceutical Research* wishes to acknowledge the vital role played by scientists, whose names appear in this and the next few pages, in keeping the quality of the journal high. Their commitment to excellence was admirable and very much appreciated by members of the pharmaceutical community.

A special note of thanks goes to those reviewers who had reviewed more than five manuscripts. Their devotion to the journal, despite the multiple demands on their time, is extraordinary.
