

Outstanding Reviewers of 2010

© Springer Science+Business Media, LLC 2011

Pharmaceutical Research recognizes the outstanding service of the following reviewers, who provided comments and recommendations for at least three or more manuscripts during 2010.

Chapla Agarwal, University of Colorado Denver
Rajesh Agarwal, University of Colorado Denver
Bharat Aggarwal, University of Texas MD Anderson Cancer Center
Mahmood Ahmad, Islamia University
Cheol-Hee Ahn, Seoul National University
Fakhrul Ahsan, Texas Tech School of Pharmacy
Hidetaka Akita, Hokkaido University
Tom Alfredson, Roche Palo Alto
Hassan Almoazen, University of Tennessee
Anil Kumar Anal, Living Cell Technologies Ltd.
Rinku Baid, University of Colorado Denver
Praveen Balimane, Bristol-Myers Squibb
Ajay K. Banga, Mercer University
Martin Bergstrand, Uppsala University
Sven Björkman, Malmö University Hospital
Kathleen M.K. Boje, SUNY Buffalo
Youngro Byun, Seoul National University
Anuj Chauhan, University of Florida
Peng Chen, Nanyang Technological University
Kun Cheng, University of Missouri–Kansas City
Carolyn Coulter, University of Otago
Zhengrong Cui, University of Texas at Austin
James T. Dalton, GTx, Inc.
Abhijit Date, Northwestern University
Tejal Desai, University of California San Francisco
Hari Desu, InnoPharma, LLC
Anand Dhanikula, University of Montreal
Ryan F. Donnelly, Queen's University Belfast
Stephen Duffull, University of Queensland
Chandrasekar Durairaj, Allergan, Inc.
Lawrence Gan, Biogen Idec

Bruno Gander, ETH Zürich Institute of Pharmaceutical Sciences
Allen Gao, University of California Davis
Olga B. Garbuzenko, Rutgers University
Harvinder Singh Gill, Texas Tech University
Pascal Girard, Merck Serono
Margareta Hammarlund-Udenaes, Uppsala University
Hyo-Kyung Han, Chosun University
Andrea Hawe, Leiden University
Ian Haworth, University of Southern California
Jiang He, University of California San Francisco
Guenther Hochhaus, University of Florida
Nicholas H.G. Holford, University of Auckland
Ken-ichi Hosoya, University of Toyama
Ming Hu, University of Houston
Jin-Ding Huang, National Cheng Kung University
Kousei Ito, University of Tokyo Hospital
Sanyog Jain, National Institute of Pharmaceutical Education & Research SAS Nagar
Wim Jiskoot, Leiden University
Pål Johansen, University Hospital Zürich
Amal Kaddoumi, University of Louisiana Monroe
Devendra S. Kalonia, University of Connecticut
Yoshikatsu Kanai, Osaka University
Rangaramanujam M. Kannan, Wayne State University
Gideon Kersten, Netherlands Vaccine Institute
Mark H. Kleinman, GlaxoSmithKline
Uday B. Kompella, University of Colorado Denver
Yellela S.R. Krishnaiah, Nova Southeastern University
Ashutosh A. Kulkarni, Allergan Inc.

- Addanki Pratap Kumar**, University of Texas Health Science Center
Jeevan R. Kunta, Johnson & Johnson
Yurong Lai, Pfizer Inc.
Majella E. Lane, University of London
Frank Lee, Millennium Pharmaceuticals, Inc.
Minhyung Lee, Hanyang University
Feng Li, University of Tennessee Health Science Center
Hong Li, Ohio State University
Tonglei Li, University of Kentucky
Xiaoling Li, University of the Pacific
Yaping Li, Shanghai Institute of Materia Medica
Dexi Liu, University of Pittsburgh
Feng Liu, University of North Carolina
Junxuan Lu, University of Minnesota
Ze Lu, Optimum Therapeutics, LLC
Zheng-Rong Lu, Case Western Reserve University
Yuh-Fun Maa, Genentech
Kazuya Maeda, University of Tokyo
Ram I. Mahato, University of Tennessee Health Science Center
Hanns-Christian Mahler, F. Hoffmann–La Roche AG
Robert W. Malone, Private Consultant
Heidi M. Mansour, University of Kentucky
Satohiro Masuda, Kyoto University Hospital
Matsusaki Michiya, Osaka University
Paul J. Missel, Alcon Research, Ltd.
Marilyn Emily Morris, SUNY Buffalo
Sujit Nair, Amrita Vishwa Vidyapeetham University
Reinhard H.H. Neubert, Martin Luther University Halle-Wittenberg
Takuro Niidome, Kyushu University
Makiya Nishikawa, Kyoto University
Manfred Ogris, Ludwig Maximilians Universität München
Sumio Ohtsuki, Tohoku University
Tae Gwan Park, Korea Advanced Institute of Science & Technology
Michael J. Pikal, University of Connecticut
James Edward Polli, University of Maryland
Vitaly Pozharov, Rutgers University
Mark Prausnitz, Georgia Institute of Technology
David Putnam, Cornell University
Theodore Randolph, University of Colorado Boulder
Israel Rubinstein, University of Illinois Chicago
Frans G.M. Russel, Radboud University Nijmegen Medical Centre/NCMLS
Wolfgang Sadee, Ohio State University
Fuminori Sakurai, Osaka University
Aliasger K. Salem, University of Iowa
Jinye Shen, NanoMaterials Technology
Xianglin Shi, University of Kentucky
Xuetao Shi, Tohoku University
Chang-Koo Shim, Seoul National University
Ronald A. Siegel, University of Minnesota
Jagdish Singh, North Dakota State University
Satish K. Singh, Pfizer, Inc.
Shivendra Vikram Singh, University of Pittsburgh Cancer Institute
Michael Sinz, Bristol Myers Squibb
Sangly P. Srinivas, Indiana University
Nanjoo Suh, Rutgers University
Sneha Sundaram, University of North Carolina
Ikumi Tamai, Kanazawa University
Tomohiro Terada, Kyoto University Hospital
Ruchit Trivedi, University of Colorado Denver
Iñaki F. Trocóniz, University of Navarra
Puneet Tyagi, University of Colorado Denver
Jurgen Venitz, Virginia Commonwealth University
Chunming Wang, University of Cambridge Cancer Centre
Dong Wang, University of Nebraska Medical Center
Dong-an Wang, Nanyang Technological University
Jie Wang, Optimum Therapeutics, LLC
Michael Weiss, Martin Luther University Halle-Wittenberg
Fumiyoshi Yamashita, Kyoto University
Zhaoyang Ye, East China University of Science & Technology
Siwang Yu, Rutgers University
Xiaowan Zheng, Roche Pharmaceuticals
Guy Zuber, Université de Strasbourg
