

## Subject Index

- Acetohexamide 215  
 Acetylcholinesterase, Immobilization 115  
 Acetylcholinesterase Reactivators, *in vitro*  
 Assay for Evaluation 115  
 Acetylsalicylic Acid Prodrugs 151  
 Adrenaline Prodrugs Acyclovir 151  
 Adrenaline Prodrugs 168  
 Adrenalone, *O,O*-Diethylsuccinyl- 168  
 Adriamycin 33, 259  
 Adriamycinol 33  
 Aldophosphamide 89  
 Allopurinol and its Riboside 194  
 3-Aminobenzenephosphonic Amides and  
 Esters and *N*-Benzylidene Derivatives  
 271  
 Analgesic Compounds 39, 209  
 Anthracyclines  
 – Body Distribution and Reduction to  
 Hydroxy Metabolites 33  
 – Pharmacokinetics in Dogs 33  
 Anthramycin 52  
 Anthramycin-DNA Adduct 54  
 Anthraquinone 269  
 Antidiabetic Agents, Determination in  
 Serum and Plasma 215  
 Anti-Drug Antibodies 106  
 Antifertility Agents (Potential): Manti-  
 ferin 279  
 Antimicrobial Agents: Benzoquinoline  
 Quinones and Benzo[*g*]isoquinoline  
 Quinones 269  
 Antipyrine 225  
 Antitumor Antibiotics: Pyrrolo[1,4]=  
 benzodiazepines 52  
 Ara-A-2',3'-diacetate 151  
 Ara-uracil, 5,2'-Difluoro-2'-deoxy- 181  
 ATP Secretion, Continuous Measurement  
*in vivo* 40  
 Bambuterol and Analogs 19  
 Benzenetricarboxylic Acids, Hypolipid-  
 emic Activity in Rodents 63  
 Benzo[*g*]isoquinolinediones, Antimicrobial  
 Activity 269  
 Benzoquinoline Quinones, Antimicrobial  
 Activity 269  
 Bioerodible Polymer Matrices 8  
 $\beta$ -Blockers, Design using the Inactive  
 Metabolite Approach 120  
 Bloodflow, Artificial Variation in Intes-  
 tinal Segments of the Rat and Influ-  
 ence on Drug Absorption from Jeju-  
 num 23  
 Bronchodilators 19  
 Bumetanide, *in vitro* Metabolism 274  
 Butanone, Glutarimido-, Phthalimido-  
 and Succinimido- 267  
 Carbamazepine, Blood-level Monitoring  
 107  
 – Factors affecting its Concentration (un-  
 bound) in Plasma 49  
 Carbon Dioxide, Use for Extraction of Na-  
 tural Substances 189  
 Carbutamide 215  
 Carminomycin 33  
 CCNU 259  
 Cefamandole 234  
 Cefoperazone 234  
 Cellular Permeability 259  
 Chlorpropamide 215  
 Chromatographic Analyses: Effect on Col-  
 umn Temperature and Eluent Flow Rate  
 on the High-performance Liquid-chroma-  
 tographic Analysis of Cyclosporins A  
 and D 245  
 Cimetidine 59  
 Combination Chemotherapy: Thymidylate  
 Synthetase Inhibitors + Ribonuclease  
 Reductase Inhibitors 181  
 Contraceptive Drugs, Irreversible Binding to  
 Serum Protein induced by UV Light 126  
 Contrast Agents for Magnetic Resonance  
 Imaging 203  
 Cromolyn, Hexanoyloxymethyl Ester 150  
 Cyclophosphamide, Metabolism 89  
 – 4-Hydroxy-, Decomposition Studies  
 89  
 Cyclosporins A and D, Chromatographic  
 Analysis 245  
 Cytochrome P 450, Binding of H<sub>2</sub>-Recep-  
 tor Blocking Agents 59  
 – Destruction by Ethynyl Pounds  
 141  
 – Replacement *in vitro* by Hydrogen Per-  
 oxide + Hemoglobin or Iron(II) Sulfate  
 (for *N*-Demethylation) 277  
 Daonil 215  
 Daunomycin 259  
 Daunorubicin and 4-Demethoxy Derivative  
 33  
 5,8-Dideazaisofolic Acid 181  
 Drugs (General), Absorption from Jejunum,  
 Dependence on Blood Pressure 23  
 – Cell/Medium Partitioning in Cell Cul-  
 tures 259  
 – Concentration, Binding to Receptors  
 Target Tissues, and Effect *in vivo* 102  
 – Delivery by Program or Sensor Con-  
 trolled Infusion Devices 237  
 – Delivery through Biological Membranes  
 168  
 – Design of Cutaneous Therapeutics 148  
 – Determination in Plasma by Equilibrium  
 Dialysis, Correction for Volume shift 17  
 179  
 – Distribution into Saliva 140, 225  
 – Effect of Rectal Motility on Bioavailabil-  
 ity of Rectally Administered Drugs 173  
 – Effect of Traces of Alcohols on Solubil-  
 ity of Drugs (Dienogest) in Water 137  
 – Externally Portable Delivery Systems  
 237  
 – Implantable Delivery Systems 237  
 – Interactions through Binding to Cyto-  
 chrome P 450 59  
 – Level-monitoring in Blood by Nephelo-  
 metric Immunoassay 105  
 – Liposomally Entrapped Drugs, Transmu-  
 cosal Passage in Intestine 221  
 – Liposomally Entrapped Drugs, Uptake  
 from Jejunum 256  
 – Metabolism in Skin 148  
 Drugs (General)  
 – Relationship of Octanol/Water Partition  
 Coefficient and Mol Weight to Cellular  
 Permeability and Partitioning in S 49  
 Lymphoma Cells 259  
 – Site-specific Administration in Rectum  
 129, 164  
 – Sustained-release Dosage Forms 82 82  
 – Uptake by Cells 264  
 Ellipticinine 261  
 Epinephrine *see*: Adrenaline  
 Equilibrium for Volume Shift by Measurement  
 of Plasma Protein Concentration 179  
 – Influence of Volume Shift on Estimation  
 of Plasma Protein Binding of Drugs 187  
 Essential Oils, Deterpenation 192  
 Ethanol, Delayed Elimination in Rats after  
 Application of Cefamandole or Cefoper-  
 azone 234  
 Ethynyl-substituted Compounds, Interaction  
 with Cytochrom P-450 141  
 Extraction of Natural Substances with Dense  
 Gases 189  
 Fentanyl 209  
 Fenton Reagent 277  
 First-pass Elimination of Drugs, Avoidance  
 by Site-specific 129, 164  
 Fluorocortin Butyl Ester 152  
 – *i*-Butynoyloxymethyl- 151  
 Fluoropyrimidine Derivatives, Cytotoxicity  
 110  
 5-Fluorouracil 69, 110, 181  
 5-Fluorouracil, *i*-Butynoyloxymethyl- 151  
 5-Fluorouridine 110  
 Formycin B 194  
 1-Formylisoquinoline Thiosemicarbazone  
 181  
 Glibenclamide and Metabolites 215  
 Glibornuride 215  
 Glizalide 215  
 Glipizide 215  
 Gliquidone 215  
 Glisoxepide 215  
 Glutarimide and *N*-Alkyl Derivatives 267  
 –  $\alpha$ -Phenyl- 267  $\gamma$ - 267  
 Glyburide 215  
 Glymidine 215  
 Green Pigment Formation in Liver 141  
 Hepatic Elimination of Drugs, Effects by  
 other Drugs 59  
 Hydrogen-receptor Blocking AGents, Bind-  
 ing to Cytochrome P 450 59  
 Hydroxyurea 181  
 Hypolipidemic Agents, Benzenedi- and -tri-  
 carboxylic Acids 63  
 – derived from Phthalimide 250, 267  
 Hypotension, Lipogenase-induced, Revers-  
 ion 135  
 3-Iminophthalimidine, Hypolipidemic  
 Activity 250  
 Insulin, Delivery by Program or Sensor  
 Controlled Infusion Devices 237

- Insulin, *in situ* Jejunal Uptake for Liposomal Systems 256  
 – Release from Polymeric Matrices 8  
 Isophthalic Acid 63
- Jejunal Bloodflow and Absorption of Drugs 23
- Keratinization, Reversion in Tracheal Organ Cultures 93
- Laser Doppler Velocimetry 76
- Lecithin, Oil-free 192
- Leishmania 194
- Lidocaine 129
- Lipid Metabolism: Effect of *N*-(*p*-Chlorobenzoyl)-sulfamic Acid Sodium Salt on Lipid Metabolism in Rodents 28
- Lipoxygenase-induced Hypotension, Reversion by Thyrotropin-releasing Hormone 135
- Liposomes, Effect of Entrapped Markers on Uptake in Jejunum 256  
 – Preparation 159, 221, 256  
 – Stability in Mucosal Solution 221  
 – Stability on Storage 159
- Liquid Crystals: in Emulsions, Creams, and Gels containing Ethoxylated Sterols as Surfactant 154
- Macromolecular Drugs, Controlled Release from Polymeric Matrices 2
- Mangiferin, Effect on Reproductive Function of Rats 279
- Metoclopramide, High-pressure Liquid Chromatographic Analysis in Serum 43
- Metoprolol 120
- MINA (Oximinoacetone) 115
- Misonidazole 259
- Morphine 209, 231
- Mydriatic Agents, Short-acting 168
- 1,8-Naphthalimide and *N*-Derivatives 267
- Narcotic Antagonists, Determination in Serum by Radioreceptor Assay 209  
 – WIN 44, 441 46
- Naxolone, [*N*-Allyl-2,3-<sup>3</sup>H]- 209
- Neo-Kyotorphin 39
- Neothramycins A and B 52
- Nephelometric Immunoassay for Therapeutic Drug-level Monitoring 105
- Nicotinic Acid, Methyl Ester, Percutaneous Absorption 76
- Nitrones derived from Retinal 93
- Nitroxyls, Pharmacokinetics and Metabolic Fate 203
- Norethindrone 141
- Norethisterone, Irreversible Binding to Serum Protein induced by UV Light 126
- Nucleosides versus Nucleotides as Chemotherapeutic Agents 13
- Nucleotide Analogs: Their Potential as Inhibitors of Retroviruses and Tumors 11
- Nucleotides, Entry into Cells 14  
 – Modification at the Phosphate Moiety 14
- Opioid Receptor Binding 209
- Opiate Antagonists: WIN 44, 441 46
- Orotic Acid 69
- Oximes, Use as Reactivators of Acetylcholinesterase 115
- Oximinoacetone (MINA) 115
- Oxmetidine 59
- 2-PAM 115
- Parasitic Protozoa, Metabolism of Pyrazolopyrimidines 194
- PCNU 259
- Pentapeptides, Analgesic Activity of Neo-Kyotorphin 39
- Pentazocine 209
- Peptides: Controlled Release from Polymeric Matrices 2
- Percutaneous Absorption of Methyl Nicotinate 76
- Phenylacetic Acid Esters, 4-(3-Amino-2-hydroxypropyloxy)- 120
- Phenytoic 179
- Phosphoramidate Mustard 89
- Phosphorus GABA Analogs as Potential Prodrugs 271
- Photopulse Plethysmography 76
- Phthalic Acid 63
- Phthalimide and *N*-Alkyl Derivatives 267
- Platelets, On-line Counting together with ATP Recording 40
- Polyhaptenic Antigens 107
- Polymeric Matrices, Controlled Release of Peptides and Macromolecular Drugs 2
- Polypeptide Drugs, Half-lives 2
- Primaquine, Aromatic Hydrogen Exchange 184  
 – Metabolism and Distribution 96, 98  
 Prodrugs, Lipophilic Terbutaline Esters 19  
 – of Acetylsalicylic and Salicylic Acid 151  
 – of Adrenaline 168  
 – of Theophylline 151  
 – Penetration through Skin 148  
 – Phosphorus GABA Analogs 271
- Propanoic Acid, 3-Glutarimido-, 3-Phthalimido-, and 3-Succinimido- 267
- Propranolol 164
- Prostaglandin-E<sub>1</sub>-induced Catalepsy, Inhibition by Drugs 229
- Proton Exchange in Primaquine 184
- Purine, 6-Mercapto-, Prodrugs 151
- Pyrrro[1,4]benzodiazepine Antitumor Antibiotics 52
- Pyrazolopyrimidines, Metabolism in Parasitic Protozoa 194
- Quinoline, 8-(3-Carboxy-1-methylpropylamino)-6-methoxy-, Synthesis 96
- Radiimmunoassay, Determination of Glibenclamide and Other Sulfonyleureas 215
- Radioreceptor Assay, Determination of Narcotic Analgesics in Serum 209
- Ranitidine 59
- Release of Drugs from Polymeric Matrices 2
- Release Polymers, Preparation and Use 2
- Reninlitrone 93
- Retroviruses, Role in Cellular Transformation; Inhibition by Nucleotide Analogs 11
- Reverse Transcriptase, Inhibition by Nucleotides and Analogs 12
- Ribonucleotide Reductase, Inhibition by Nucleotide Analogs 13
- Salicylic Acid Prodrugs 151
- Sibromycin 52
- Skin: Structure and Drug Metabolism, Relevance to Design of Cutaneous Therapeutics 148
- Solubility of Drugs (Dienogest) in Water containing Traces of Alcohols 137
- Succinimide and *N*-Alkyl Derivatives 267  
 –  $\alpha$ -Phenyl- 268
- Sulfamic Acid Sodium Salts, *N*-(4-Chlorobenzoyl)-, Effect on Lipid Metabolism 28
- Sulfonyleureas, Determination in Serum and Plasma by Radioimmunoassay 215
- Suppositories, Effect of Rectal Motility on Bioavailability of Drugs 173
- Sustained-release Dosage Forms 2, 82
- Terbutaline, Lipophilic Esters as Prodrugs with Long Effect Duration 19
- Terephthalic Acid 63
- Theophylline, Influence of Blood Flow on Absorption from Jejunum 23  
 – Inhibition of Clearance by Morphine 231
- 4-Thiopurinol and its Riboside 194
- Thymidine 69
- Thyrotropin-Releasing Hormone, Effect on Hypoxigenase-induced Hypotension 135
- Tolazamide TMB-4 115
- Tobramycin 140
- Tolazimide 215
- Tolbutamide 215
- Tomaymycin 52
- Trypanosoma 194
- Tumor-growth Inhibitors 11, 52, 69, 110, 181
- Uracil 69
- Uridine 69, 110
- Verapamil 179
- Vidarabine 5-Valerate 151
- Vincristine 261
- Viral Reverse Transcriptase, as a Target for Chemotherapy 12
- Water: Effect of Unoccupied Structural Free Space on Solvency of Drugs 137  
 WIN 44, 441 46

## Book Reviews

- Heilmann, Klaus: Therapeutic Systems, Rate-controlled Drug Delivery: Concept and Development . . . . . 236
- Muller-Schauenburg, W., H. Benzing, E. Betz, B. Blum: Measurement of Blood Flow and Local Tissue Energy Production by Thermal Methods, Evaluation of Methodology . . . . . 236
