

AAPS Electronic Scientist

COVERING PHARMACEUTICAL SCIENCE AND RESEARCH ON THE INTERNET

May 2002

AAPS Offers Personalized E-Journals to its Members

AAPS members can now visit a personalized page on *AAPS Pharmaceutica* that filters and tailors the portal's content to match each user's research interests. The result is a "personalized e-journal" customized to each AAPS member.

As you log into the portal site, an internal search is triggered that gathers articles and abstracts from the journal database that pertain to your research areas. The current database includes *AAPS PharmSciSM* (including Annual Meeting abstracts), *AAPS PharmSciTechSM*, *Pharmaceutical Research*, and *Journal of Pharmaceutical Sciences*. The pool of abstracts will increase as more journals are added to the site in the future. AAPS is pleased to offer this new benefit, exclusively developed for AAPS members.

How to Visit Your Personalized E-Journal

1. Log onto www.aapspharmaceutica.com. The *AAPS Pharmaceutica* home page will appear.
2. Enter your member ID and password in the log-in box.
3. The page will shift and your personalized page will appear.
4. Search for abstracts and articles.

2002 AAPS Annual Meeting Career Center

The AAPS Career Center is being held in conjunction with the AAPS Annual Meeting and Exposition November 10-14, 2002 in Toronto. The Career Center will be located at the Metro Toronto Convention Centre, in Constitution Hall. The Career Center provides the opportunity to meet with well-respected employers in the pharmaceutical sciences. The hours of operation will be 9:00 am - 5:00 pm, November 11-13, 2002. For more details visit

www.aapspharmaceutica.com/careercenter

AAPS Presents Groundbreaking Meeting Dedicated to Biotechnology

Cutting-edge biotechnology research and development will be on display at the AAPS National Biotechnology Conference, June 24-26, 2002, at the Sheraton San Diego Hotel & Marina in San Diego, CA. Attendees will have the opportunity to visit exhibitors and view scientific presentations in poster format. Current practitioners in the biotechnology field as well as students interested in a biotechnology career will not want to miss this event!

AAPS has traditionally focused on bioanalytical, PK/PD, formulation and delivery issues for pharmaceutical biotechnology products. This conference includes programming that deals with other aspects of pharmaceutical biotechnology, such as research/discovery, cell culture/fermentation, alternate expression systems, recovery processes and pharmacogenomics, and their impact on development of biotechnology-derived pharmaceuticals. For further information visit www.aapspharmaceutica.com/biotechnology or call 703-243-2800.

AAPS Offers Distance Learning Opportunities

AAPS offers a series of distance learning programs that innovate and manage distance learning opportunities for AAPS members and the scientific community. Visit www.aapspharmaceutica.com/dl for complete details on all of the AAPS Distance Learning products including:

The Basics of Prodrugs

Kenneth B. Sloan, Ph.D.,
University of Florida

Prodrugs are pharmacologically inactive derivatives of an active drug designed to ameliorate some identified, undesirable physical or biological property. The Basics of Prodrugs has been adapted from the presentation of the same name at the Sunrise Pharmacy School during the 2001 AAPS Annual Meeting in Denver, and converted into a self-contained CD-ROM program rich with chemical formulae and descriptive text.

Understanding Patent Law

Aslan Baghdadi, J.D., Ph.D., Shaw Pittman

This CD-ROM is for scientists who wish to learn about what can be patented, the patent application process, and what you must do and not do before filing an application to patent an invention. The course will also cover recent developments in patent law in the United States plus a summary of foreign filing requirements and procedures.

Small Pharma Approach for Predicting Human Pharmacokinetics

Rene Braeckman, Ph.D.

This course outlines a practical strategy for the implementation and integration of *in vitro* and *in vivo* preclinical testing for pharmacologic, pharmaceutical, PK, and toxicologic drug characteristics, for a young, small pharmaceutical company.

Copyright Law for Scientists

Jeff Glassie, Esq., Partner, Shaw Pittman

This CD-ROM is for scientists who write books, contribute to journals, teach, and conduct workshops, seminars, and other presentations. It provides an overview of current U.S. copyright laws pertaining to the creation and use of intellectual property.

Upcoming AAPS Meetings

Throughout 2002, AAPS will present a series of informative conferences, workshops and short courses. Log onto www.aapspharmaceutica.com/meetings for the latest meeting news and registration details.

► June 3-5, 2002

AAPS Workshop on the Integration of Exposure Response Relationships in Drug Development and Regulatory Assessment—Revisiting a Decade of Experience
Co-Sponsored with FDA

Crystal Gateway Marriott, Arlington, VA

www.aapspharmaceutica.com/xresponse

► June 13-14, 2002

AAPS Workshop on the Paperless Laboratory—Finally a Reality

Crystal Gateway Marriott, Arlington, VA

www.aapspharmaceutica.com/paperless

► June 24-26, 2002

AAPS National Biotechnology Conference

Sheraton San Diego Hotel & Marina, San Diego, CA

www.aapspharmaceutica.com/biotechnology

► September 16-18, 2002

AAPS Workshop on Dissolution/*In Vitro* Release Testing and Specifications for Special Dosage Forms
Co-Sponsored with FDA

Crystal Gateway Marriott, Arlington, VA

www.aapspharmaceutica.com/dosage

► September 25-27, 2002

AAPS Workshop on Biopharmaceutics Classification System: Implementation Challenges and Extension Opportunities

Co-Sponsored with FDA

Crystal Gateway Marriott, Arlington, VA

www.aapspharmaceutica.com/biosys

► November 10-14, 2002

2002 AAPS Annual Meeting and Exposition

Metro Toronto Convention Centre, Toronto, Ontario, Canada
