AAPS Workshop on Stability: Developing a Stability Program for the Global Market

September, 10-12, 2007

Bethesda North Marriott Hotel & Conference Center
Bethesda, MD

Stability is a crucial sector of the drug development process. Companies rely on the stability data to establish an expiry for marketed pharmaceutical products. Many guidelines have been developed around this arena; however, many issues continue to be raised and challenge our practices. Some of these issues include: impurities; storage conditions; expiry estimating; and outsourcing. The physical stability of a drug substance has a significant effect on both the chemical stability and the bioavailability of the drug product. This meeting will benefit scientists and managers having responsibilities in a variety of functions relating to drug development-including process development, formulation and analytical development, regulatory affairs, and production.

This meeting would provide a forum to discuss current initiatives in industry on a variety of critical topics related to stability sciences, and to initiate discussion on the impact of global submission on the stability package.

2007 AAPS Annual Meeting and Exposition

November 11-15, 2007

San Diego Convention Center
San Diego, CA

As you know, the AAPS Annual Meeting and Exposition is the premier educational event in the pharmaceutical sciences that represents multiple disciplines from the global community.

AAPS offers you the diverse programming you demand, while maintaining the high quality and depth you have come to expect. Block out your calendars now for November 11-15, 2007 so you don't miss a single day of the AAPS Annual Meeting and Exposition.

For more information visit:

<http://www.aapspharmaceutica.com/annualmeeting>

Register for AAPS Annual Meeting and Exposition as a Group and Save Hundreds of Dollars

Take advantage of this opportunity to register you and your colleagues for this meeting and save hundreds of dollars! Group registration discounts will be available as follows:

- ▶ Three fully paid registrations qualify for one additional complimentary registration
- ▶ Five or more fully paid registrations qualify for two additional complimentary registrations

Registration must be in groups of four or more, from the same organization and cannot be combined with any additional offer. Group registrations are not valid after October 1, 2007 and are available through online registration only.

All registrations must be made at the same time to qualify.

Note: Group registration fee is not available for exhibitor or one-day registrants.

Solvent Systems and Their Selection in Pharmaceuticals and Biopharmaceutics

NOW AVAILABLE!

Edited by:

Patrick Augustijns, Catholic University of Leuven, Belgium
Marcus Brewster, Janssen Pharmaceutica N.V. Beerse, Belgium

Solvent systems are integral to drug development and pharmaceutical technology. This single topic encompasses numerous allied subjects running the gamut from recrystallization solvents to biorelevant media.

The goal of this contribution to the AAPS Biotechnology: Pharmaceutical Aspects series is to generate both a practical handbook as well as a reference allowing the reader to make effective decisions concerning the use of solvents and solvent systems.

To this end, the monograph was created by inviting recognized experts from a number of fields to author relevant sections. Specifically, 15 chapters have been designed covering the theoretical background of solubility, the effect of ionic equilibria and pH on solubilization, the use of solvent to effect drug substance crystallization and polymorph selection, the use of solvent systems in high throughput screening and early discovery, solvent use in preformulation, the use of solvents in biorelevant dissolution and permeation experiments, solvents and their use as toxicology vehicles, solubilizing media and excipients in oral and parenteral formulation development, specialized vehicles for protein formulation and solvent systems for topical and pulmo-

Continued

nary drug administration. The chapters are organized such that useful decision trees are included together with the scientific underpinning for their application. In addition, trends in the use of solvent systems and a balance of current views make this monograph useful to both the novice and experienced researcher and to scientists at all developmental stages from early discovery to late pharmaceutical operations.

Suggested List Price: \$189.00
AAPS Member Price: \$141.75

AAPS MemberNet

The ability to “network” professionally is one of the primary benefits of AAPS Membership. In order to enhance AAPS Members’ ability to network, AAPS is pleased to offer the AAPS MemberNet, a virtual networking environment that in many ways replicates the face-to-face networking at meetings while providing a rich set of online tools that are available around the clock!

Join the community of scientists by completing your profile and searching for colleagues with similar interests and experiences. Take a moment to see how AAPS MemberNet can keep you connected.

For more information visit <http://www.aapspharmaceutica.com/MemberNet>

AAPS Membership Offers Numerous Benefits

AAPS can help you stay informed and connected, as you move your career forward and save money.

Stay Informed

- ▶ Sections
- ▶ Focus Groups
- ▶ Discussion Groups
- ▶ Student Center
- ▶ AAPS Meetings, Workshops, and Short Courses
- ▶ AAPS Press and Publications
- ▶ A Portfolio of Scientific Journals
- ▶ *AAPS Newsmagazine*
- ▶ Key Links
- ▶ AAPS 101

Networking Opportunities

- ▶ Make new professional contacts
- ▶ Interact with your scientific peers
- ▶ AAPS Member Net
- ▶ Mentoring Program

Career Advancement

- ▶ Awards Programs/Peer Recognition
- ▶ Scholarships/Grants/Travelships

- ▶ AAPS Career Center
- ▶ AAPS Online Job Listings

Money Saving Opportunities

- ▶ Registration discounts at AAPS Scientific Workshops, Short Courses, and Meetings
- ▶ Enjoy special savings on journal subscriptions and AAPS Press Publications
- ▶ AAPS Job Listings
- ▶ Twenty-five percent off all Springer book purchases

Upcoming AAPS Meetings
