

Announcing a New Publication

Neurobiology of Aging Experimental and Clinical Research

Under the general editorship of Dr. Raymond T. Bartus. Editorial Board and Table of Contents for the first issue, early 1980, will be announced later.

AIMS AND SCOPE

Neurobiology of Aging will publish the results of multidisciplinary studies in physiology, endocrinology, biochemistry, neurology, anatomy, pharmacology, and behavior in which the primary emphasis involves central nervous system changes with age. A limited number of relevant reviews and theoretical articles, results of symposia, more comprehensive studies as monograph supplements, and brief communications which describe a new method, technique, or apparatus, and results of experiments which can be reported briefly will also be published. Articles will be published in English.

Manuscripts should be submitted directly to:
