

# ANNOUNCEMENTS

**CALL FOR PAPERS**  
**THIRD ANNUAL WINTER NEUROPEPTIDE CONFERENCE**

The Winter Neuropeptide Conference is designed to provide an informal setting for interactions between basic and clinical scientists studying chemical, biochemical, physiological and behavioral aspects of neuropeptides. The format includes short slide presentations and posters of original papers and open discussions of topics of broad general interest. Some of the topics for the 1982 meeting include "Evolution of Neurotransmitters and Neuropeptides;" "Non-neurotransmitter Roles for Neuropeptides;" "Three-dimensional Analysis of Peptide Structure;" and "Roles of Multi-neurotransmitter Neurons."

The meeting will be held January 20-23, 1982 in Breckenridge, Colorado. A brief abstract of proposed presentation should be received by October 2, 1981. Abstracts and inquiries should be addressed to:

Thomas L. O'Donohue, Ph.D.  
Section on Histopharmacology  
Laboratory of Clinical Science  
National Institute of Mental Health  
Bldg. 10, Rm. 2D46  
Bethesda, MD 20205      (301) 496-1956

Papers accepted for presentation will be published in a special volume of *Peptides*.
