3rd International Conference on the Neurohypophysis

Babraham, 14-16th September, 1982

The 3rd International Conference on the Neurohypophysis will be held at Babraham, Cambridge on September 14th-16th, 1982.

The meeting will provide a comprehensive review of recent research on the central control of neurohypophysial hormone release, and the target action of these hormones. Invited speakers will provide the bulk of the programme, but there will be provision for volunteer posters.

Further information may be obtained from the secretariat:
