TANG, C., M. WALLACE, G. SINGER AND L. MACKENZIE. *Resistance of schedule-induced behaviours to hippocampal lesions*. PHARMACOL BIOCHEM BEHAV 20(4) 537-541, 1984.

The authors wish to make the following change. On page 539 the last sentence of the first paragraph of the Results section should be changed to read as follows:

Fluorescent histochemistry showed that damage in the 6-OHDA group was nonspecific and in many cases, quite extensive.
