Piscataway, NJ 08854

RESEARCH SOCIETY ON ALCOHOLISM ANNUAL MEETING

The Research Society on Alcoholism provides an interdisciplinary forum for clinical and basic scientists to share data and exchange ideas. The meeting format will include formal symposia on topics of broad general interest and paper/poster presentations of original research.

The conference will be held May 29-June 1, 1985, at Wild Dunes, an ocean resort 12 miles north of Charleston, SC. Abstracts must be received by January 10, 1985.

For further information contact Lucille von Kolnitz, Research Service, VA Medical Center, Charleston, SC 29403

Developmental Effects of Drug Dependence

This special issue of *Neurobehavioral Toxicology & Teratology* (Vol. 6, No. 4, 1984), includes papers presented at a satellite session of the Meetings of the Committee on Problems of Drug Dependence, held on 15 June 1983.

Several overviews discuss aspects of drug dependence, such as perinatal alcohol exposure and methadone and non narcotic effects on infant development. Research papers present results of studies of various substances in both pre- and perinatal exposure.
