

Announcements

SEVENTH ANNUAL WINTER NEUROPEPTIDE CONFERENCE

The Winter Neuropeptide Conference will be held in Breckenridge, Colorado, January 20 through January 24, 1986. As in past years, the Conference is intended to provide an informal setting in which to present and discuss basic and clinical research of high quality related to neuropeptide biology. Areas of discussion will include regulation levels of organization from the molecular to the behavioral. Presentations will be as workshops, symposia and poster sessions.

Proposals for symposia and workshops should be received by October 1, 1985, and abstracts for poster sessions by November 1, 1985. A \$500 award will be presented to the most outstanding original manuscript submitted by a post-doctoral fellow (deadline for receipt November 1, 1985).

Abstracts and inquiries should be sent to:

Dr. Donald R. Britton
Department of Physiology
School of Medicine
