**Second International Symposium  
on Preclinical Strategies  
in Psychopharmacology:  
Cognition Enhancers—  
From Animals to Man**

I.T.E.M.-LABO is organizing its second INTERNATIONAL SYMPOSIUM in Paris, 12-14th October, 1988. The theme will be the preclinical and clinical development of COGNITIVE ENHANCING DRUGS. For practical reasons the official language will be English. To encourage a maximum of interaction between preclinical and clinical research workers, the first day of the Symposium will be devoted to clinical research and the second day to preclinical research. In this manner each participant will have the opportunity of actively taking part in discussions of both clinical and preclinical aspects of the development of this intriguing class of drugs.

For further information please contact either:

Dr. Roger Porsolt or Dr. Lucien Steru  
I.T.E.M.-LABO  
93 Avenue de Fontainebleau  
94270 Le Kremlin-Bicetre  
France

**Third International Symposium on  
Neurobehavioral Methods in  
Occupational and Environmental Health**

To be held *December 12-15, 1988* at the WHO Regional Office for the Americas, Washington, DC.

The primary focus on neurobehavioral methods, their development, evaluation, validation, and application in environmental and occupational health. Demonstrations and poster sessions are encouraged.

Languages for the symposium will be English and Spanish. Simultaneous interpretation will be provided. All papers and discussions from the symposium will be published as a Monograph.

Requests for further information should be addressed to the Symposium Secretariat: Agency for Toxic Substances and Disease Registry, Attn: Third International Neurobehavioral Symposium, 1600 Clifton Road, N.E., Stop F-38 C-27, Atlanta, Georgia 30333, USA.
