

ERRATUM

TRUJILLO, K. A. AND H. AKIL. *The NMDA receptor antagonist MK-801 increases morphine catalepsy and lethality.* PHARMACOL BIOCHEM BEHAV **38**(3) 673-675, 1991. —

Due to a labeling error, Figs. 1 and 2 in the above-cited article were each printed with the incorrect label, "Log Dose Morphine (mg/kg)," below the abscissa. The correct label in each figure should read, "Dose Morphine (mg/kg)." Doses mentioned in the figure legends and text of the paper were correct as published.

The authors regret any inconvenience caused by this error.
