

International Behavioral Neuroscience Society

IBNS 18th Annual Meeting

June 9-14, 2009

*Wyndham Grand Bay, Isla Navidad Resort
Manzanillo, Mexico*

KEYNOTE SPEAKERS:

Trevor Robbins, Ph.D

and

Ann Graybiel, Ph.D.

We cordially invite members and nonmembers alike to attend our Annual Meeting at the beautiful Wyndham Grand Bay resort in Manzanillo, Mexico. The program will include plenary lectures, oral communications, and poster sessions. Topics will focus on a number of themes including, but not limited to: Learning, Memory, and Neuronal Plasticity; Ingestive Behavior; Drugs of Abuse and Psychopharmacology; Behavioral Endocrinology; Behavioral Genetics; and Psychoneuroimmunology.

Proposals and abstracts may be prepared on any subject related to the general area of behavioral neuroscience. Abstract deadline is February 1, 2009. Late abstracts will be considered until April 1 for poster presentation only.

IBNS also offers travel awards for outstanding students and post-doctoral fellows - applications are due by Feb. 1, 2009.

For additional information on IBNS membership and detailed instructions for abstracts submissions, please visit our website at: www.ibnshomepage.org or contact the IBNS Central Office at ibns@ibnshomepage.org.

Founded in 1992, IBNS has approximately 719 members which derive from 36 different countries and consist of scientists, clinicians, teachers with a background and interest in the relationship between the brain and behavior. The meeting includes cutting edge behavioral neuroscience presentations (key note speakers, symposia, and poster sessions), mentorship opportunities, career building workshops and student travel awards. The major goal of the meeting is to bring together scientists whose interests are in the broad area of understanding the neural control of behavior.
