

ANNOUNCEMENT

The Committee for International Collaboration in Research and Education of the International Brain Research Organization and American EEG Society has received requests for the following assistance:

India, Burma

Needed for neuroscience facilities:

Back and current issues of journals and books relevant to the neurosciences: Specific requests for the following,

Brain Research
Journal of Neurophysiology
Journal of EEG and Clinical Neurophysiology
Archives of Neurology
Neurology
Physiology and Behavior
Biological Psychiatry
Journal of Psychiatric Research
Proceedings of the Association for Research in Nervous and Mental Disease

Nepal

Needed for Bir Hospital:

Atlas or basic science texts on EEG theory, technique, interpretation.

Training Fellowship sought by highly skilled and motivated registered nurse working as EEG technician who desires 3–6 months technology training in United States or United Kingdom. English excellent. Please write directly to Sister S. Shrestha, Psychiatry Unit, Bir Hospital, Kathmandu, Nepal.

Pakistan: Needed – 30 × 23 cm EEG paper.

We receive frequent requests from directors of programs in developing countries for visits from touring scientists who can donate a few days or weeks to give lectures and to consult on research and potential collaborative work. Please contact our committee if your future travel plans include visits to Indian Subcontinent, Burma, South America or the Philippines and you are able to give time for these activities or can contribute journals, books, or surplus equipment in good condition (polygraphs, stimulators, oscilloscopes).

If you or your institution can assist with any of the above, please contact:

Janice R. Stevens, M.D., Professor of Neurology
Chairman, Committee on International Collaboration
