The publisher regrets that there was an error in Fig. 2 of the above paper when originally published. The corrected figure is reproduced below.

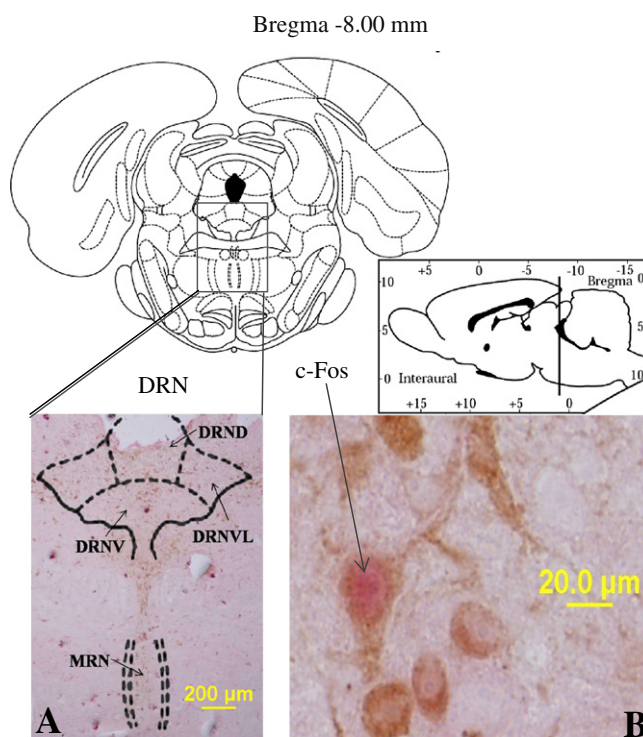

Fig. 2. (A) Illustrations of DRN brain sections are based on the atlas of Paxinos and Watson (1998). (B) Photomicrograph illustrating an example of c-Fos expression in TrpOH-immunostained neurons in DRN. Black arrow indicates a c-Fos-immunostained cell (pink nuclear staining).
