Locomotor mimicry in butterflies? A critical review of the evidence

By Andrew V. Z. Brower

The axes in figures 2 and 3 of this paper were mislabelled during production. The x axis should read ‘centre of body mass (non-dimensional)’, while the y axis should read ‘centre of wing mass (non-dimensional)’. The axes and the data points are as in Srygley (*Phil. Trans. R. Soc. Lond. B* **343**, 145–155 (1994)), figure 3 and Appendix 1.
