It was thought fit to publish here the following Advertisement of John Evelyn Esquire, and that, as himself proposed it. Viz.

Being much solicited by many worthy Persons, to publish a *Second Edition* of my Discourse and Directions concerning *Timber, &c.* which was printed at the Command and by the Encouragement of the R. Society, I do humbly request, that if any Person have any Material Additions or Reformatiions, which he thinks necessary either to the Part, which concerns the Improvement of *Forrest-Trees*, or that of *Cider*, he would be pleased to communicate his Notes and Directions to Mr. H. Oldenburgh, one of the Secretaries of the said Society, at his House in the *Palmal* of *St. James's Fields Westminster*, with what speed they conveniently can, before our *Lady-day* next, to be inserted into this intended *Edition*.

NOTE,

What was observed, Numb. 20. p. 364. l. 18. of the Number of Vegetables, (vid. That they are about 410.) found in England; and catalogued by Dr. Merret in his Pinax, &c. is to be understood only of the different Kinds of Plants, not of the several sorts of several Plants; for, these being comprised, the Number will amount to about 1400.
