Iron of a Key.	7643	A Medal esteem'd to be near fine Gold.	19636
Steel.	7852		
Cast Brass.	8100		

II. *Extracts of some Letters from Mr. John Sturdie of Lancashire concerning Iron Ore; and more particularly of the Hæmatites, wrought into Iron at Milthrop-Forge in that County. Communicated by Dr. Martin Lister, S. R. S.*

Townley, March 14. 1674.

S I R,

YOU will receive herewith some of the Cinder you desir'd, as also a little of Iron-stone both burnt and unburnt. They have several sorts of Iron-stone, and
of
