

XXXII. *The Number of People in the City of Bristol, calculated from the Burials for Ten Years successive, and also from the Number of Houses; by John Browning, Esq; of Barton-hill near Bristol: Communicated by Henry Baker, F.R. S.*

Read Jan. 25, 1753.

The certificates were obtained under the hands of the præcentor of the college, the several ministers of the seventeen parish-churches, the register-keeper of the several Quakers cemeteries, the several Anabaptists cemeteries, the Jews new-erected cemetery, for ten years, including the year 1741 and 1750. Whereas some of the parishes within the liberties of the city do extend themselves beyond the liberties into the counties of Gloucester and Somerset, they are distinguished by the names of the out-parishes. The inhabitants of the several out-parishes being buried within the liberties of the city, must of consequence be brought into the city bill of mortality.

The Castle Precinct's Ward	247
Total number of rated houses	4866

The latest and most accurate observations demonstrate, that in great cities a twenty-fifth part of the people die yearly.

The yearly amount of the burials at a medium for ten years, $1731 \times 25 = 43275$, the number of inhabitants.

The number of houfes rated to the land-tax, as appears by the rates in the council- houfe, Michaelmas, 1751,	} 4866
As the rates are not always accurately made, and as it is the ufual custom not to rate houfes, which are untenanted, hospitals, or alms-houfes, it will be neceffary to make a very large allowance for thefe deficiencies, efppecially as many houfes are rated in grofs under the denomination of feveral tene- ments; when they belong to the fame landlord in all the feveral parifhes, an al- lowance of 25 <i>per cent.</i> will be more than fufficient	} 1216
The number of houfes computed in the fe- veral out-parifhes	} 1200
Total number of houfes	<hr style="border: none; border-top: 1px solid black; margin-bottom: 5px;"/> 7282 <hr style="border: none; border-top: 1px solid black; margin-top: 5px;"/>

The ufual number of fouls allowed to each houfe is fix.

Houfes
 $7282 \times 6 = 43692$ number of inhabit^r. by the houfes.
 43275 number of inhabit^s. by the burials.
