This paper was published online on 7 January 2008 with incorrect wording in Ref. 29. Ref. 29 should read as “Carbon nanotubes present a different kind of dark state arising from the mixing of  $K$ - $K'$  transitions, which are not present in GNRs due to the absence of  $R_U$  symmetry.” The reference has been corrected as of 14 January 2008. The reference is correct in the printed version of the journal.
