This paper was published online on 28 April 2009 with two typographical errors relating to Eq. (1). In the third line above Eq. (1), the filling factor should read as “ $\nu=2E_F/\hbar\omega_c$ ”. Equation (1) should read as

$$\Delta\rho_{\text{sdHO}} = 4\rho_0 \frac{X_T}{\sinh X_T} \delta \cos(\pi\nu). \quad (1)$$

The equation has been corrected as of 29 April 2009. The equation is correct in the printed version of the journal.
