DOI: [10.1103/PhysRevB.79.239903](https://doi.org/10.1103/PhysRevB.79.239903) PACS number(s): 66.30.Pa, 68.35.Fx, 68.37.-d, 61.05.cm, 99.10.Cd

In the paper there is a typographical error in the positioning of the closing parenthesis in Eq. (2). The correct form of the equation is

$$D_{eff} = D \left(1 + \frac{P_s - P_c}{P_c} e^{-z/L_c} \right). \quad (1)$$

Analysis of data, results and discussion of the paper are, however, based on this correct form of the equation and hence remain unchanged.
