## **ERRATA**

## Erratum: Effects of changes in the chain conformation on the kinetics of order-disorder transitions in block copolymer melts [Phys. Rev. E 56, 3240 (1997)]

PACS number(s): 82.20.Wt, 64.60.Ht, 83.10.Nn, 99.10.+g

Equation (14) should be replaced by

$$\Lambda(\mathbf{q}, \mathbf{q}') = \int d\mathbf{q}'' \int d\mathbf{q}''' [\bar{P}_{AA}(\mathbf{q}, \mathbf{q}'') \bar{P}_{T}^{-1}(\mathbf{q}'', \mathbf{q}''') \bar{P}_{BB}(\mathbf{q}''', \mathbf{q}') - \bar{P}_{AB}(\mathbf{q}, \mathbf{q}'') \bar{P}_{T}^{-1}(\mathbf{q}'', \mathbf{q}''') \bar{P}_{BA}(\mathbf{q}''', \mathbf{q}') 
+ \bar{P}_{AA}(\mathbf{q}, \mathbf{q}'') \bar{P}_{T}^{-1}(\mathbf{q}'', \mathbf{q}''') \bar{P}_{AB}(\mathbf{q}''', \mathbf{q}') - \bar{P}_{AB}(\mathbf{q}, \mathbf{q}'') \bar{P}_{T}^{-1}(\mathbf{q}'', \mathbf{q}''') \bar{P}_{AA}(\mathbf{q}''', \mathbf{q}')],$$
(1)

where  $\bar{P}_T^{-1}(\mathbf{q},\mathbf{q}')$  is defined by the following relation:

$$\int d\mathbf{q}'' \bar{P}_{T}^{-1}(\mathbf{q}, \mathbf{q}'') [\bar{P}_{AA}(\mathbf{q}'', \mathbf{q}') + \bar{P}_{AB}(\mathbf{q}'', \mathbf{q}') + \bar{P}_{BA}(\mathbf{q}'', \mathbf{q}') + \bar{P}_{BB}(\mathbf{q}'', \mathbf{q}')] = \delta(\mathbf{q} - \mathbf{q}').$$
 (2)

As the actual calculations are based on the above expressions, Eqs. (1) and (2), the final results presented in the paper are not affected by this change.
