DOI: 10.1103/PhysRevE.63.049901

PACS number(s): 05.45.-a, 82.70.-y, 99.10.+g

Some errors appeared in the original paper. Following is a list of corrections. Equation (47) should correctly read as

$$\left[\begin{pmatrix} \underline{\mathbf{0}} & i\underline{q} \times \underline{I} \\ -i\underline{q} \times \underline{I} & \underline{\mathbf{0}} \end{pmatrix} + i\omega \underline{\mathbf{K}}_{Dy}(\underline{q}) \right] \cdot \underline{\mathbf{F}}(\underline{q}) = \underline{\mathbf{0}}; \quad (47)$$

Eq. (55) should correctly read as

$$\underline{\mathbf{A}}_{BCM}(\underline{q}) = \begin{bmatrix} \underline{\mathbf{0}} & (\underline{q}/\omega) \times \underline{I} \\ -(\underline{q}/\omega) \times \underline{I} & \underline{\mathbf{0}} \end{bmatrix} + \underline{\mathbf{K}}_{BCM}; \quad (55)$$

Eq. (73) should correctly read as

$$\underline{F}(\underline{m}, \underline{n}) = [(\text{tr } \underline{m})\underline{I} - \underline{m}] \cdot [(\text{tr } \underline{n})\underline{I} - \underline{n}] - [(\text{tr } \underline{m} \cdot \underline{n})\underline{I} - \underline{m} \cdot \underline{n}]; \quad (73)$$

Eq. (84) should correctly read as

$$[\underline{T}_2^{em}(\underline{\hat{v}})]_{ll} = [(\underline{F}(\underline{\epsilon}, \underline{\mu}) \cdot \underline{\xi} - \det(\underline{\xi})\underline{I}) \cdot \underline{\hat{v}} \underline{\hat{v}} - \underline{F}(\underline{\epsilon} \cdot \underline{\mu} \cdot \underline{\hat{v}} \underline{\hat{v}}, \underline{\xi}) - (\underline{\hat{v}} \cdot \underline{\xi} \cdot \underline{\hat{v}}) \text{adj}(\underline{\xi})]_{ll}, \quad l=1,2,3; \quad (84)$$

and Ref. [14] should correctly read as
