This article was intended to be placed in the “Plasma physics” section. Unfortunately, due to an inadvertent typographical error made by the editorial office while updating the database, the section was altered such that the paper became placed incorrectly in the “Classical physics, including nonlinear media and photonic materials” section. The article should have appeared in Sec. E-13 along with other papers on plasma physics. Please note that this problem will not affect any PACS, author, or keyword searches for this paper.
