There were two misprints in Eqs. (20) and (21): $\mathbf{G}^* = \text{div}(\mathbf{v}^{*'} \otimes \mathbf{v}^{*'} - \mathbf{v}^{*'} \otimes \mathbf{v}^{*'})$ should be $\mathbf{G}^* = \text{div}(\overline{\mathbf{v}^{*'} \otimes \mathbf{v}^{*'}} - \mathbf{v}^{*'} \otimes \mathbf{v}^{*'})$, and $\mathbf{G} = \text{div}(\mathbf{v}' \otimes \mathbf{v}' - \mathbf{v}' \otimes \mathbf{v}')$ should be $\mathbf{G} = \text{div}(\overline{\mathbf{v}' \otimes \mathbf{v}'} - \mathbf{v}' \otimes \mathbf{v}')$.
