PACS number(s): 87.18.Sn, 99.10.+g

In Eq. (17) the term \bar{g}^2 should be replaced by $\overline{g^2}$.
 Equation (18) should be

$$\kappa = \frac{\overline{g^2} - \bar{g}^2}{g^2}.$$

Equation (A2) should read

$$C_n = a \left\{ 1 + 2c \frac{-\lambda^2 + \lambda \cos(n\omega) + (-1)^n \lambda^{(N-1)/2} \cos[(n\omega)/2][\lambda - 1]}{1 + \lambda^2 - 2\lambda \cos(n\omega)} \right\}.$$
