After correcting typographical errors formula (4.8) should read as follows:

$$\begin{aligned} \sigma[D(\rho D\tilde{f}) - \rho k^2 \tilde{f}] &= D[(D\mu)(D^2 + k^2)\tilde{f} \\ &+ \mu(D^2 - k^2 - c)D\tilde{f}] \\ &- k^2[\mu(D^2 - k^2 - c)\tilde{f} + 2(D\tilde{f})(D\mu) - g\tilde{\rho}]; \\ \sigma\tilde{\rho} &= -k^2\tilde{f}D\rho(z). \end{aligned}$$
