Equation (32) is incorrect and should be replaced by

$$A_0(t) = \begin{cases} a_- + a_+ \{1 - e^{-t} [1 + \tanh(T/4)]\} & \text{if } t \in [0, T/2] \\ a_- - a_+ \{1 - e^{[(T/2)-t]} [1 + \tanh(T/4)]\} & \text{if } t \in [T/2, T]. \end{cases}$$

All other results that depend on this equation (including numerical results) are based on the correct equations, that is, the error was purely typographical.
