Erratum: Nonlinear relaxation field in charged systems under high electric fields [Phys. Rev. E 62, 6135 (2000)]

K. Morawetz

Unfortunately, there were a number of misprints in three of the formulas. They must be corrected as follows:

Equation (10): To the first line add $\equiv n_a F_a$.

Equation (11): Capital F should be replaced by small f.

Equation (13): ρ_a should be replaced by n_a.

Equation (15): Small f_a and f_b should be replaced by capital F_a and F_b.

Equation (15): A $1/T$ factor is missing in the second line.

Equation (15): In the third line, in the denominator it should be $\bar{k}^2$ instead of k^2.

Equation (15): In the fourth line, the term $(\mathbf{k}-\bar{\mathbf{k}})$ is not a product but the argument of g_{ab} of the preceding line.
