### GENERAL INFORMATION

#### Aims and Scopes

Physics and chemistry of liquids publishes experimental and theoretical papers aimed at furthering the understanding of the liquid state. The coverage embraces the whole spectrum of liquids; from simple monatomic liquids and their mixtures, through charged liquids (e.g. ionic melts, liquid metals and their alloys, ions in aqueous solution, metal-electrolyte systems) to molecular liquids of all kinds.

An important aim of the journal is to provide a medium for the publication of interdisciplinary papers on liquids.

Original papers, letters warranting speedy publication, as well as appropriate and timely review articles are invited. There are no page charges to authors or to institutions.

*Notes for contributors can be found at the back of the journal.*

#### Subscription Rates

Four issues per volume: \$252.00 U.S. (including postage)

This price applies in North America only. All other countries will be invoiced at our current conversion rate. The subscription rates include a distribution charge of \$17.00 for postage and handling. Individual rates are available for personal subscribers whose institutions already subscribe. Please write to the publisher for details. Send your order to your usual supplier or direct to Harwood Academic Publishers GmbH, c/o STBS Ltd., 1 Bedford Street, London WC2E 9HD, England. Journal subscriptions are sold on a volume basis only; single issues are not available separately. Claims for non-receipt of issues should be made within three months of publication of the issue. If not, they will not be honored without charge. Subscriptions are available for microform editions for current and back volumes. Please write for details.
