GENERAL INFORMATION

Aims and Scopes

Physics and chemistry of liquids publishes experimental and theoretical papers aimed at furthering the understanding of the liquid state. The coverage embraces the whole spectrum of liquids; from simple monatomic liquids and their mixtures, through charged liquids (e.g. ionic melts, liquid metals and their alloys, ions in aqueous solution, metal-electrolyte systems) to molecular liquids of all kinds.

An important aim of the journal is to provide a medium for the publication of interdisciplinary papers on liquids. Original papers, letters warranting speedy publication, as well as appropriate and timely review articles are invited. There are no page charges to authors or to institutions.

Notes for contributors can be found at the back of the journal.

Subscription Rates

Four issues per volume.

Corporate subscription rate per volume: \$334.00 (including postage).

Individual subscription rate per volume: \$133.40* (including postage).

University and academic libraries in North America, Western Europe and Australasia receive a 20 per cent academic discount from the corporate rate.

* Individual subscription rates are available only to individuals who subscribe directly from the publisher and who pay through personal checks or credit cards.

This price applies in North America only. All other countries will be invoiced at our current conversion rate. The subscription rates include a distribution charge of \$17.00 for postage and handling. Individual rates are available for personal subscribers whose institutions already subscribe. Please write to the publisher for details. Send your order to your usual supplier or direct to Gordon and Breach Science Publishers, c/o STBS Ltd., 1 Bedford Street, London WC2E 9PP, England. Journal subscriptions are sold on a volume basis only; single issues are not available separately. Claims for non-receipt of issues should be made within three months of publication of the issue. If not, they will not be honored without charge. Subscriptions are available for microform editions for current and back volumes. Please write for details.

License to Copy

The appearance of the code at the top of the first page of an article in this publication indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on condition the copier obtains a license directly from the publisher at the address below. Subscribers will be offered a license with each subscription renewal of the publication. The license will not be extended to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Nor does the license extend to any individual or company specifically advised by the publisher in writing that consent is being expressly withheld. It is expressly forbidden to any individual or company to copy any article as agent, either express or implied, of another individual or company.

Reprints of Individual Articles

Copies of individual articles may also be obtained from publisher's own document delivery service, On-Demand Publishing, at appropriate fees.
