Aims and Scope

Physics and Chemistry of Liquids publishes experimental and theoretical papers aimed at furthering the understanding of the liquid state. The coverage embraces the whole spectrum of liquids, from simple monatomic liquids and their mixtures, through charged liquids (e.g. ionic melts, liquid metals and their alloys, ions in aqueous solution, and metal-electrolyte systems) to molecular liquids of all kinds. An important aim of the journal is to provide a medium for the publication of interdisciplinary papers on liquids.

Original papers, letters warranting speedy publication, as well as appropriate and timely review articles, are invited. There are no page charges to authors or to institutions.

Notes for contributors can be found at the back of the journal.

Ordering Information

Four issues per volume. 1995 Volumes: 29-30

Orders may be placed with your usual supplier or with International Publishers Distributor at one of the addresses shown on the inside back cover. Journal subscriptions are sold on a per volume basis only; single issues of the current volume are not available separately. Claims for nonreceipt of issues will be honored free of charge if made within three months of publication of the issue. Subscriptions are available for microform editions; details will be furnished upon request.

All issues are dispatched by airmail throughout the world.

Subscription Rates

Base list subscription price per volume: ECU 266.00 (US \$319.00). * This price is available only to individuals whose library subscribes to the journal OR who warrant that the journal is for their own use and provide a home address for mailing. Orders must be sent directly to the Publisher and payment must be made by personal check or credit card. Separate rates apply to academic and corporate/government institutions, and may also include photocopy license and postage and handling charges.
