

PAPERS RECEIVED

- J. INGLE: The extraction and estimation of nucleotides and nucleic acids from plant material. (Received 14 December 1962.)
- V. S. GOVINDARAJAN and A. G. MATHEW: Polyphenolic substances of arecanut. I. Chromatographic analysis of fresh mature nut. (Received 21 January 1963.)
- J. F. FREDERICK: An algal α -glucan phosphorylase which requires adenosine-5-phosphate as co-enzyme. (Received 19 February 1963.)
- HANS O. BOUVENG: Polysaccharides in pollen. I. Investigation of mountain pine (*Pinus mugo* Turra) pollen. (Received 8 March 1963.)
- V. H. BOOTH: α -Tocopherol, its co-occurrence with chlorophyll in chloroplasts. (Received 1 March 1963.)
- J. FRIEND and E. R. REDFEARN: Studies of plastoquinone. II. Oxidation-reduction reactions of plastoquinone in isolated chloroplasts. (Received 13 March 1963.)
- L. HOUGH and B. E. STACEY: The occurrence of D-Ribohexulose in *Itea ilicifolia*, *Itea Virginica* and *Itea yannanensis*. (Received 16 April 1963.)
- K. ABEL: The physical and chemical basis of symbiotic nitrogen fixation: Recent advances. (Received 5 March 1963.)
- E. HAREL and A. M. MAYER: Interference of phenolase in the determination of cytochrome oxidase activity in lettuce seeds. (Received 19 March 1963.)
- CHICITA F. CULBERSON: The Lichen substances of the genus *Evernia*. (Received 28 March 1963.)
- JUDITH L. GOLDSTEIN and T. SWAIN: Changes in tannins in ripening fruits. (Received 15 April 1963.)
- SHIZUO HATTORI and MITSUHIKO SATO: Oxidation of arbutin by isolated chloroplasts of some arbutin-containing plants. (Received 4 February 1963.)
- J. B. HARBORNE: Plant polyphenols. X. (Received 16 February 1963.)
- C. HARTMANN: L'activité aldolasique des tissus de pomme et de poire. (Received 9 March 1963.)
- D. F. JONES, J. MACMILLAN and M. RADLEY: Plant hormones. III. (Received 27 April 1963.)
- J. F. THOMPSON, D. H. TURNER and ROSE K. GERING: Gamma glutamyl transpeptidase in plants. (Received 16 April 1963.)
- MARGARET K. SEIKEL and J. W. ROWE: Eudesmol isomers from *Cordia trichomota* wood. (Received 27 April 1963.)
- A. TOUZÉ: Evolution des acides aminés libre. (Received 27 April 1963.)
- DORA RAST, A. G. MCINNES and A. C. NEISH: Application of gas chromatography to the neutral water-soluble constituents of twigs of some gymnosperms. (Received 20 May 1963.)
