

PAPERS ACCEPTED FOR PUBLICATION

- CHAO-HWA YANG and S. H. WENDER: Identification of aromatic aldehydes in cigarette smoke and in tobacco. (Received 8 April 1963.)
- G. BENFIELD, SHEILA M. BOCKS, K. BROMLEY and B. R. BROWN: Studies on fungal and plant laccases. (Received 11 April 1963.)
- D. H. MACLENNAN and H. BEEVERS: *Trans*-Aconitate in plant tissues. (Received 20 May 1963.)
- T. A. SMITH and J. L. GARRAWAY: *N*-Carbamyl putrescine. An intermediate in the formation of putrescine by barley. (Received 24 May 1963.)
- C. MATHIS and G. OURISSON: Étude chimie-taxonomique du genre *Hypericum*. Part II, Identification de constituants de diverse huiles essentielles d'*Hypericum*. (Received 31 May 1963.)
- C. MATHIS and G. OURISSON: Étude chimie-taxonomique du genre *Hypericum*. Part III, Réparation des carbures saturées et du monoterpènes dans les huiles essentielles d'*Hypericum*. (Received 31 May 1963.)
- G. W. ELSON, D. F. JONES, J. MACMILLAN and P. I. SUTER: Plant hormones. Part IV, Identification of the gibberellins of *Echinocystis macrocarpa* by thin layer chromatography. (Received 7 June 1963.)
- M. F. HUGH, W. VETTER, H. AUDIER, M. BARBIER and E. LEDERER: Analyse des sterols du pollen par spectrométrie de masse. (Received 14 June 1963.)
- FILIPPA A. M. ALBERGHINA: Chlorogenic acid oxidase from potato tuber slices. (Received 10 June 1963.)
- M. PIATTELLI and L. MINALE: Pigments of the centrospermae. Part I, Betacyanins from *Phyllocactus hybridus* and *Opuntia ficus-indica*. (Received 27 June 1963.)
- L. MEILONER and K. MOTHES: Über stoffwechselaktivität im latex von *Papaver somniferum*. Part 6, Zur biochemie des milchsafes. (Received 28 June 1963.)
- A. C. HULME, J. D. JONES and L. S. C. WOOLTORTON: Mitochondrial preparations from the fruit of the apple. (Received 28 June 1963.)
- L. R. WETTER: Biosynthesis of mustard oil glucosides—II. The administration of sulphur-35 compounds to horse-radish leaves. (Received 8 July 1963.)
- T. W. GOODWIN and D. M. THOMAS: The carotenoid pigments in the petals of *Mimulus cupreus* and *Mimulus Tigrinus*. (Received 18 July 1963.)
- J. W. FAIRBAIRN and G. WASSEL: The alkaloids of *Papaver somniferum* L.—I. Evidence for a rapid turnover of the major alkaloids. (Received 17 July 1963.)
- D. THIRKELL: Investigation of a chlorophyll—lipoprotein complex. (Received 29 July 1963.)
- D. LAVIE, D. WILLNER and Z. MERENLENDER: Constituents of *Citrullus colocynthis* (L.) Schrad. (Received 18 July 1963.)
- P. DUPERON, W. VETTER and M. BARBIER: Sur la fraction insaponifiable des spores de fougère *Polystichum filix mas* L. (Received 6 August 1963.)
- C. W. ROSS: Metabolism of 6-Azaauracil and its incorporation into RNA in the cocklebar. (Received 9 August 1963.)
- H. REINBOTHE: Urea metabolism in Basidiomycetes—II. Formation of γ -guanidinobutyric acid in fruit bodies of cycoperdon. (Received 9 August 1963.)
- V. BOOTH: The rise in tocopherol content of leaves on prevention of growth. (Received 14 August 1963.)
- H. M. SCHWARTZ, S. I. BIEDRON, M. M. VON HOLDT and S. REHM: A study of some plant esterases. (Received 12 August 1963.)
- G. A. IACOBucci and E. A. RUVEDA: Bases derived from tryptamine in Argentine *Piptadenia* species. (Received 20 August 1963.)
