

ANNOUNCEMENT

SPECIAL OFFER TO MEMBERS OF PHYTOCHEMICAL SOCIETIES

Save at least \$40 (£20) on

PROGRESS IN PHYTOCHEMISTRY

Editors: L. REINHOLD, J. HARBORNE, T. SWAIN

Volume 4

Contents: The pathway of nitrogen assimilation in plants, B. J. Miflin and P. J. Lea; Recent advances in the biochemistry of plant amines, T. A. Smith; The naturally occurring cyanogenic glycosides, D. S. Seigler; *t*RNA and Aminoacyl-*t*RNA synthetases from higher plants, P. J. Lea and S. Norris; Phenylalanine ammonia-lyase, E. L. Camm and G. H. N. Towers; Flavonoid sulphates, J. B. Harborne; The sesquiterpenes, G. A. Cordell; Function of steroids in plants, E. Heftmann; Index of species and genera; Subject index.

290 pp.	124 illustrations	1977	ISBN 0 08 021004 X
Published price: US \$60.00	£30.00	Society Members' price: US \$20.00	£10.00

Volume 5

Contents: Osmotic regulation in algae, H. Kauss; The biochemistry of host response to infection, I. Uritani; The biosynthesis of monoterpenes, D. V. Banthorpe; Chlorophyll biosynthesis and its control, E. Harel; Chemical constituents of the bryophytes, K. R. Markham and L. J. Porter; Anticancer agents from plants, G. A. Cordell; Subject index.

332 pp.	93 illustrations	1978	ISBN 0 08 022645 0
Published price: US \$70.00	£35.00	Society Members' price: \$30.00	£12.00

Volume 6

Contents: Photosynthetic carbon metabolism in C_4 Plants and C_3 – C_4 Intermediate Species, C. K. M. Rathnam and R. Chollet; Synthesis and turnover of plant membrane phospholipids, P. Mazliak; Cellular compartmentation and channelling of secondary metabolism in microorganisms and higher plants, M. Luckner, B. Dietrich and W. Lerbs; Paleobiochemical techniques and their applications to paleobotany, K. J. Niklas; Photosensitizers from plants and their photodynamic action, G. H. N. Towers; The Stilbenoids, J. Gorham; Mechanism of action of phototoxins affecting plasmalemma functions, E. Marre; Index of species; Subject index.

294 pp.	51 illustrations	1980	ISBN 0 08 024946 9
Published price: US \$87.50	£38.00	Society Members' price: US \$30.00	£12.00

Volume 7

Contents: E. C. Bate-Smith: An Appreciation; Electrophoretic evidence and plant populations, L. D. Gottlieb; Carbonic anhydrase in plants: distribution, properties and possible physiological functions, M. L. Reed and D. Graham; Biochemistry of the transition from resting to germinating state in seeds, A. M. Mayer and I. Marbach; Modern methods for plant hormone analysis, R. Horgan; The non-protein amino acids occurring in plants, E. A. Bell; Plant phenolics, lignification and plant disease, J. Friend; The scope and diversity of terpenoid biosynthesis by the marine alga *Laurencia*, B. M. Howard and W. Fencial; Phytochemical gaps in our knowledge of hallucinogens, R. E. Schultes; Index of species and genera; Subject index.

344 pp.	61 illustrations	1981	ISBN 0 08 026362 3
Published price: US \$87.50	£38.00	Society Members' price: US \$30.00	£12.00

Ordering Information

In order to be able to claim this special offer, please send your order to your nearest Pergamon office claiming the special members' price. Please give details of the Phytochemical Society to which you belong. Payment *must* be included with the order, otherwise the full published price will be charged. The offer is for members of Phytochemical Societies only, and is not transferable to Company or Institutional Libraries.

All prices are subject to change without notice.

Sterling prices are for customers in the UK and Eire only.
