

ANNOUNCEMENTS

TWENTY-FIRST ANNIVERSARY ISSUE—JULY 1982

This year *Phytochemistry* celebrates 21 years of service to the scientific community as the premier international journal of plant biochemistry. While the first issue in 1961 contained seven papers and 62 pages contributed by authors of three countries, the first issue of 1982 contained 68 papers and 256 pages from authors of 16 countries. This is some measure of the growth of the subject over these 21 years.

We wish to express our gratitude to all journal users—authors, editors and librarians—for this continued support and interest. We are also very grateful to Pergamon Press and their editorial staff for the valued and unflagging services in production and publication. We welcome constructive criticism and suggestions for improvement at all times. We look forward to being of service over the next 21 years!
